Windesign is an expanding brand which has a proven hardware range for Laser[®], ILCA[®] and 420, a large collection of tiller extensions, dinghy trolleys, bags and clothing collection; The MIRA series.

The extensive range of products is exported to more than 80 countries around the world. The name Windesign[®] is a registered trademark.

Windesign was founded in 2000 as brand for hardware, clothing and accessories for all dinghy sailors. In 2016 we started thinking about a full clothing collection called the "MIRA Series". In 2017 we were able to supply the first "MIRA Series" items and due to success, we have been able to develop and expand to a full clothing collection for junior and adult.

Our MIRA Series are designed with the highest quality fabrics to provide high end waterproofness, durability and flexibility. Comfortable dinghy sailing gear for all dinghy sailors.

TECHNICAL SPECS

Our MIRA SERIES are designed with the highest quality fabrics to provide high end waterproofness, durability and flexibility. Comfortable dinghy sailing gear for junior and adult.

NEO-SKIN

NEO-SKIN fabric is a 3-layer combination of a nylon water repellent outer, a light-weight stretch mid and a soft nylon inside layer.

W-FLEX stands for our neoprene flexibility. The combination of high quality neoprene and the production technique offers the flexibility that every sailor is looking for.

POLAR

POLAR is a soft fleece fabric which offers the best comfort and warmth to your skin.

RIPSTOP

Our buoyancy aid features a lightweight ripstop outer layer. The thicker thread which is used in the ripstop weaving techniques ensures more durability.

STRETCH-SKIN

Our gloves features a comfortable stretch-skin fabric. This stretch-skin fabric gives you the flexibility and comfort you need.

MESH##LINING

Mesh lining is used in our spraytop to keep you warm and comfortable. Developed to avoid sticky sweat feelings and to make changing clothes easier. Keeps you dry and ready to race!

UV50+ SKIN

Protect yourself against the sun with our UV50+SKIN products. The UV50+ fabric provides maximum sun protection.

Our Comfort Hiking Trapeze Harness provides full back support, has a PVC coated 600D polyester shell and heavy duty rear. Unique in adjustability and comfort.

TERRY

The quick dry, soft and hairy TERRY fabric offers comfort and warmth to your skin. This fabric has many protruding loops of thread which can absorb large amounts of water.

A thin flexible, extremely breathable (MVP 10.000 g/m²/24hr) and waterproof (W/P 10.000 mm) 75D Twill Polyester Pongee + PU coated fabric which makes our spraytop the ultimate spraytop in all weather conditions.
